No matter how basic or bold, ExSel is a strong, attractive, quality building that is efficient and functional.

ExSel is the perfect choice for a wide variety of uses ranging from retail to steel church buildings. Our commercial buildings work well with various applications such as, stucco, block, tile and glass to attain a professional look, while keeping costs low.

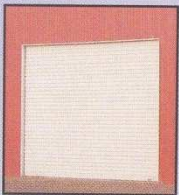

Residential

ExSel steel buildings offer a cost effective and energy efficient structure that can be designed to fit almost any situation. Whether it's spending the evening and week-end hours in your wood shop or tinkering with a growing collection of cars or storing and maintaining a boat or RV, there's an ExSel building that will fit your specific needs.

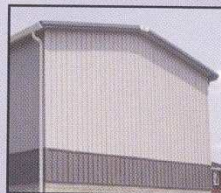

High Quality Steel Buildings
Built to Last

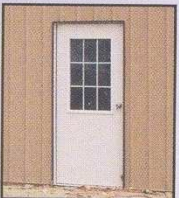

Building Options

Overhead Garage Doors: Mini rollup doors for basic garages to full-sized commercial rollup doors for high walled shops to premium residential panel doors, choose from a range of overhead doors to meet your design & functionality requirements.

Wainscot: Steel wainscot systems are not only stylish but also help protect the lower area of your building. *Brick or wood are also options that can be provided by others.

Mandoor: Walk-doors are available as a solid door or with a narrow lite glass panel. Door and frame are reversible for left or right-hand operation. Each door package includes all the necessary framing and trim for complete installation in your building.

Reflective Insulation: Reflective foil insulation is composed of two outer layers of foil or foil/white poly with an inner double layer of bubble wrap. The foil layer reflects 97% of radiating heat waves to keep your building cool in the summer and warm in the winter. Polyethylene bubbles provide the necessary thermal break to eliminate condensation problems in metal buildings.

Windows: Vinyl windows are available to provide light and ventilation for your building as well as an aesthetically pleasing appearance.

Cupolas: Top your building off with a stylish classically-designed cupola which can be color-coordinated to match your structure.
*Optional weathervanes available.

Additional Options

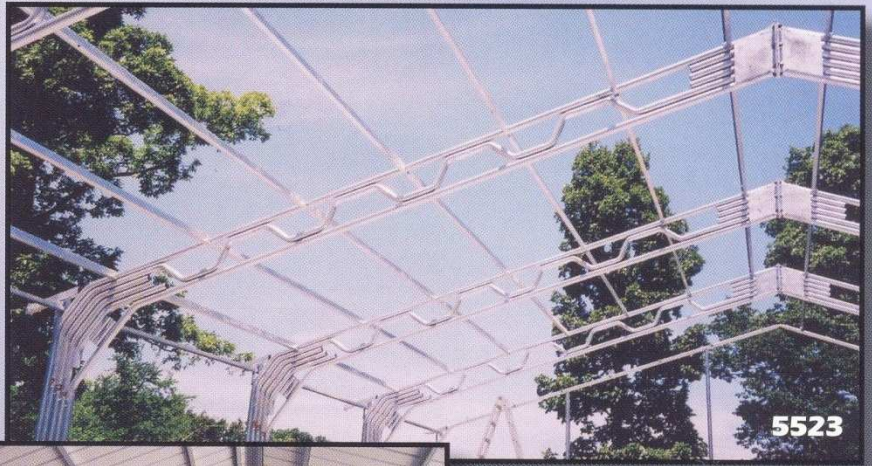

- ◆ Shutters
- ◆ Overhangs
- ◆ 2:12 & 4:12 Roof Pitches
- ◆ Clear Light Panels
- ◆ Gutters & Downspouts

*Contact your local distributor/dealer for available options

Why choose our Galvanized steel framed building?

- ◆ Steel is tough & durable
- ◆ Fireproof material
- ◆ Low maintenance
- ◆ Galvanized steel resists rust and corrosion, unlike primed red-iron frames
- ◆ Steel is weather resistant
- ◆ Steel does not rot, warp, shrink, split or deteriorate
- ◆ 100% usable space
- ◆ Competitively priced
- ◆ Secure storage

All ExSel structures are manufactured using top quality zinc-coated 2½" 11 gauge round tubing with galvanized C-purlins to form the frames and 29 gauge pre-painted Galvalume® steel for the exterior sheeting. ExSel structures provide a range of custom made steel buildings suitable for use as sheds, garages, agricultural use, storage buildings, etc.

Our precision design and manufacturing meets and/or exceeds industry standards and provides a high quality, durable, steel framed structure. We take great pride in the fact that we only use American steel, ensuring that our customers receive only the best quality steel buildings available.
